MESSAGE FROM THE DIRECTOR

As Director of Global Steel L.L.C,
We are privileged to lead a team committed to excellence in healthcare facilities and the petroleum industry. We specialize in installing/servicing progressive medical equipment and delivering essential infrastructure solutions for petroleum sectors.

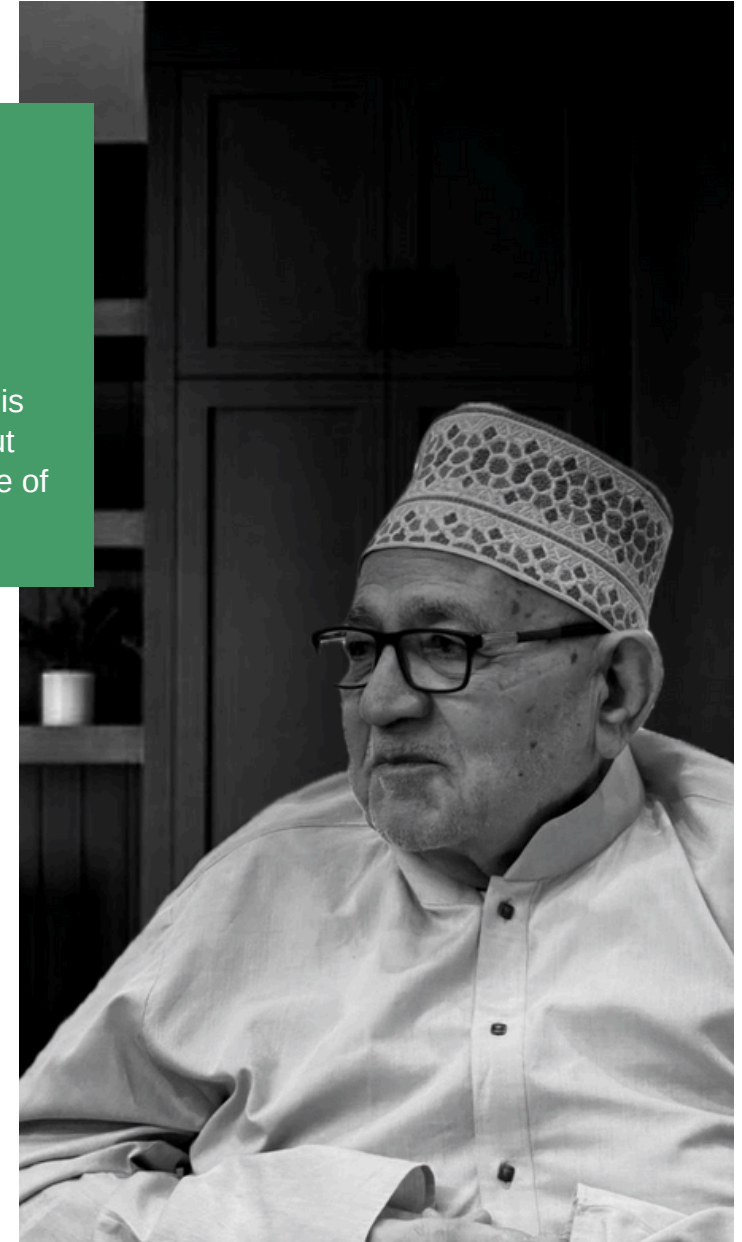

Our mission is to exceed industry standards, ensuring our clients receive top-tier service and reliability. Together, we drive forward with expertise and passion, making a positive impact on these critical industries.

Shafiq Akram

I firmly believe that our customers' satisfaction is not only our success but also our greatest source of motivation.

1. INTRODUCTION

1.1 Company Overview

Global Steel & Technical Services, a Limited Liability Company certified with (ISO 9001:2015), was founded in Dubai, UAE in 1994. We specialize in delivering extensive services to both the healthcare sector, particularly in the installation of diagnostic and treatment equipment, and energy-related organizations.

Our core expertise lies within the healthcare domain, where we excel in preparing premises and installing medical diagnostic imaging machinery in hospital facilities.

Additionally, we offer steel fabrication and erection services tailored to various sectors, including but not limited to the Oil & Gas Industry, Petrochemical Industry, Power Generation sector, and Commercial markets.

1.2 Mission & Vision

Mission

Our mission is to deliver unparalleled engineering support through project management for the healthcare, oilfield, energy, and marine sectors.

We achieve this by providing unique and creative solutions that not only meet but exceed client expectations, aligning closely with their business objectives while upholding the highest ethical standards and prioritizing the public interest.

Vision

We aspire to deliver professional, top-tier services through progressive technical disciplines and unwavering teamwork.

With a strong technological foundation, we advocate boldly for our clients, ensuring excellence in meeting their needs.

Our leadership extends to healthcare equipment installation, RF and magnetic shielding for MRI premises in the Middle East and SEA region, and engineering services across oilfield, marine, energy, and aviation sectors.

1.3 Core Values

Quality

1

We uphold the highest standards of quality in our project services, achieved through a motivated and empowered workforce committed to excellence.

Integrity

2

Honesty and trustworthiness define our actions, as we courageously pursue the best outcomes for our customers and communities.

Respect

3

Fairness, justice, and respect for the rights of others guide our interactions. We value diverse perspectives and actively engage in collaboration for the benefit of our customers

Agility

4

Openness to new ideas and technologies, responsiveness to changing needs, and innovation drive our actions. We approach our work with energy and enthusiasm to produce optimal outcomes for the community.

Commitment

5

We take pride in our longstanding tradition of service and willingly accept the responsibility of keeping our customers' premises safe. We are dedicated to achieving this goal while carrying out healthcare installations with the welfare of humankind in mind.

Corporate Social Responsibility

6

As socially responsible citizens, we prioritize sustainability and the efficient use of energy in our business practices. We are committed to fulfilling our business goals and objectives while contributing positively to society.

2. SERVICES

We offer services to hospitals and medical equipment manufacturers.

Jobs undertaken for the adaptation of equipment pre- installation:

- Lead lining for radiation protection
- design and fabrication of steel structures for the installation of ceiling mounted medical equipment including civil works and electromechanical works
- Designing, Manufacturing and Installation of Helium Quench Pipes for Superconductive Magnets.

2.1 Site Preparation for Medical Equipment

Renovation work in mechanical installation of Medical Equipment:

- Catheterization Lab
- X-Rays systems General
- X-Rays systems Fluoroscopy
- Mammography
- CT Scanners (PET/SPECT)
- MRI
- Lithotripsy
- Molecular Imaging

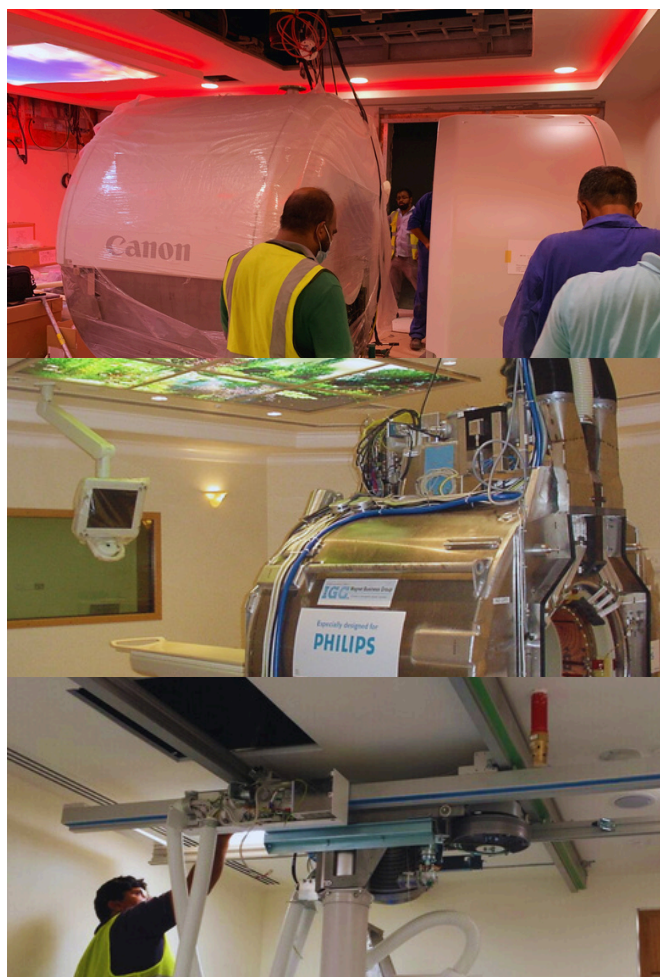

2.2 Site Preparation / Pre-Installation Civil Works

- Modifying existing facility
- Building a complete suite for radiology department
- Designing and fabrication of steel structural works for ceiling mounted equipment Fabricating necessary furniture like specialized cabinets, tables etc.
- Electromechanical works related to the equipment's and premises

3. HEALTHCARE PROJECTS

3.1 Pre-Installation/Site-Preparation works for Medical Equipments

Snr	Project	Client	Location
1	Pre-installation works for 3T Siemens MRI (Skyra), Room Interiors Decoration + [Quench Pipe Manufacturing and Installation]	MPC/Siemens	Tawam Hospital Al-Ain, UAE
2	Installation of ambience experience for Biplane and Monoplane Catheterization Labs.	Philips Healthcare	Military Hospital Abu-Dhabi, UAE
3	Site preparation works for the installation of CT Scanner	Siemens Medical	Qassimi Hospital Sharjah, UAE
4	Site preparation works for the installation of X-Ray systems	DOHMS	Rashid Hospital Dubai, UAE
5	Site preparation works for the installation of X-Ray systems	DOHMS	Dubai Hospital Dubai, UAE
6	Site preparation for CSSD	International Modern Hospital	Dubai, UAE
7	Pre-installation works for 3T MRI + Quench Pipe	Siemens Medical	Tawam Hospital
8	Pre-installation works for CT Scanner	MPC AI	Al Jazeera Hospital
9	Site preparation works for X-Ray system	Philips Healthcare	Afghanistan
10	Equipment Pre Installation works for 1.5T MRI	Siemens Medical	Bone & Joint Center
11	Pre-installation works for CT/1.5T MRI/X-Rays/Mammography	Philips Medical Dubai	Dubai Mall Medical
12	Pre-installation works for CT/1.5T MRI/X-ray/Cathlab/Mammo	NMC Hospital	NMC Hospital Dubai
13	Site preparation works for 1.5T MRI + Quench Pipe	Siemens Medical	Sharjah. Teaching hospital, Sharjah UAE
14	Site Preparation for 1T open MRI + Quench Pipe	Philips Medical	SKMC Ajman, UAE
15	Site preparation for 3T MRI/CT/X-Ray + Quench Pipe	Al Zahra Hospital	Al Zahra Sharjah, UAE

3.2 Installation of Medical Equipment Projects

Snr	Project	Client	Location
1	Installation of Biplane Cathlab -2Nos.	Philips Healthcare	SHKM Centre Abu-Dhabi, UAE
2	Installation of Bright View X-CT (Gamma Camera)	Philips Healthcare	SHKM Centre Abu-Dhabi, UAE
3	Installation of Biplane Cathlab	Philips Healthcare	Qassimi Hospital Sharjah, UAE
4	Upgrade of 1.5T Integra to Achieva Magnet	Philips Healthcare	SHKM Centre Abu-Dhabi, UAE
5	Installation of 1.5T MRI/CT/X-Ray	Siemens Medical	Bone & Joint Hospital Dubai
6	Dismantling and packing of X-Ray (Bucky TH) system	Philips Healthcare	SHKM Centre Abu-Dhabi, UAE
7	Shifting of Prestige VH GE Fluoro system	GE Healthcare	Oman
8	Installation of X-Ray systems	Philips Healthcare	Afghanistan
9	Installation of X-Ray systems	Siemens Medical	Al Zahra Hospital Sharjah, UAE
10	Installation of CT-64/Fluoro/3T MRI	Philips Medical	Al Zahra Hospital Sharjah, UAE
11	Installation of Cathlab/CT/Mammo	Philips Healthcare	Kuwait
12	Installation of 1.5T MRI/CT	Philips Medical	Bahrain
13	Installation of Lithotripsy system	Dornier	Afghanistan
14	Installation of 1.5T MRI	Siemens Medical	Sharjah Teaching Hospital Sharjah, UAE
15	Installation of 256 slice CT Scanner	Philips Healthcare	Rashid Hospital Dubai, UAE
16	Pre-installation/site preparation for 3T MRI	Siemens Medical	American Hospital Dubai, UAE
17	Installation of 3T MRI machine	Siemens Medical	American Hospital Dubai, UAE
18	De-installation of X-Rays machine	Siemens Medical	American Hospital Dubai, UAE
19	Installation of X-Rays machine (Luminos dRF)	Siemens Medical	Cleveland Clinic, UAE
20	Installation of 3T MRI machine	Siemens Medical	Khalifa Hospital Umm-al-Quwain, UAE
21	De-installation, Packing, Shifting & Re Installation of 3T MRI (SKYRA)	Siemens Medical	Abu Dhabi, UAE
22	Installation of 1.5T MRI	Siemens Medical	Prime medical Hospital near airport Dubai, UAE
23	De-Installation + Site renovation and Re Installation of Biplane Cathlab	Philips Healthcare	Dubai Hospital Dubai, UAE
24	CSSD development along with complete site-preparation	Philips Healthcare	Military hospital Abu-Dhabi, UAE

4. STEEL FABRICATION SERVICES

4.1 Customers & Projects

We specialize in structural and industrial fabrication, covering a wide range of products such as Towers, Tank Canopies, Marine structures, and General Fabrication. Additionally, we offer body fabrication services for buses, trucks, trailers, and tankers.

Completed Projects:

Snr	Project	Client
1	Fabrication and erection of warehouses	Contracting Companies in Dubai
2	Manufacturing of telecommunication towers	Nera Communications
3	Manufacturing of standalone oil reservoirs	Dowell Schlumberger
4	Designing and manufacturing of 4x4, 6x6, 8x8 crew transport buses	WesternGeco (Schlumberger) Libya
5	Designing and manufacturing of 6x6, 8x8 seismic survey equip. carriers	WesternGeco (Schlumberger) Iran/Yemen
6	Designing and manufacturing of cement mixers	Local Contracting Companies
7	Designing of complete crew of 4x4, 6x6 buses/material handling vehicles	Bukkehave Iraq/UNO
8	Designing and manufacturing of Heli portable offshore camp	Schlumberger Overseas

5. ENGINEERING SERVICES

Global Steel's team of professional engineers excels in all facets of structural steel fabrication and erection, including connection analysis, welding, lifting procedures, quality standards, and design optimization. We leverage the latest advancements in engineering, fabrication, and erection techniques to efficiently meet our clients' needs.

5.1 Maintenance Services

Global Steel is uniquely positioned to handle a diverse range of industrial maintenance projects with expertise and precision. Our specialization lies in civil and electromechanical engineering services, encompassing the installation of liquid chillers and comprehensive building maintenance.

Equipped with advanced tools and techniques, we ensure seamless execution and optimal performance across all projects, meeting the highest standards of quality and reliability.

5.2 Oilfield & Marine Services

We provide a comprehensive suite of engineering services tailored to the Oil and Gas Industry. Our specialization extends to Oil Field Services, where we excel in the manufacturing of:

- Wireline Units
- Logging Units
- FED Units
- Slick Line Units
- Offshore Boxes
- Baskets for tool handling
- Radioactive Source Boxes
- Explosive Bunkers

5.3 Projects Completed for Oilfield & Marine Sectors

Snr	Project	Client	Location
2	Manufacturing of wireline Unit	Scientific Drilling	Oman
1	Manufacturing of specialized wireline data acquisition units	Schlumberger	UAE
3	Manufacturing of Dog Houses	Schlumberger	UAE, Iran, India, Libya & Oman
4	Manufacturing of Oil Reservoirs	Dowell Schlumberger	UAE, Iran & India
5	Design and Manufacturing of Offshore Labs of Measurement While Drilling services	Schlumberger	Indonesia & Iran
6	Manufacturing of Radioactive source boxes	Halliburton Services	Middle East
7	Manufacturing of 1010/1020 Explosive Bunkers	Schlumberger Overseas	Iran
8	Design and Manufacturing of Cargo Baskets	Ander gauge Drilling	Oman
9	Design and Manufacturing of Heliport able Containers	Schlumberger	UAE

6. MARKET PRESCENSE

6.1 Target Audience

1. Healthcare Sector:

Healthcare Facilities: Global Steel targets hospitals and medical clinics internationally for the installation of diagnostic and treatment equipment. For example, we provide installation services for MRI & CT scanners, and surgical equipment to enhance healthcare capabilities in medical facilities.

2. Oil & Gas Industry:

Oil Refineries: Global Steel offers specialized erection services for oil refineries in Dubai. For instance, we provide structural steel fabrication and installation for refinery units and pipelines to support the oil extraction and processing operations.

Offshore Platforms: We also cater to offshore oil and gas platforms, providing structural steel platforms, walkways, and safety barriers designed to withstand harsh marine environments in the region.

3. Petrochemical Industry:

Chemical Plants: Global Steel serves petrochemical plants in Dubai by offering structural steel solutions for chemical storage tanks, process equipment supports, and industrial piping systems.
